

## **Minutes – Hans Price Academy**

Meeting Date: 24 January 2023
Location: Hans Price Academy

**Time:** 4.00pm

Chair: Kathryn Volk (KV) Sponsor Councillor & Chair

Rachel Allchurch (RA) Student Advocate
Tony Searle (TS) Senior Principal

Sally Apps (SA) Executive Principal (Dialled In)

Claire Pannell (CP) Sponsor Councillor Vacancy Teacher Councillor

Jon Hofgartner (JH) Sponsor Councillor & Vice Chair

In Attendance: Sue Burns (SB) Clerk

**Apologies:** Christine Weeks (CW) Support Staff Councillor

Item	Description	Action
1.0	Welcome, Introductions and Apologies	
1.1	KV welcomed everyone to the meeting.	
1.2	Absent with apologies: Christine Weeks.	
2.0	Declarations of Interest	
2.1	None declared.	
3.0	Minutes of Previous Meeting	
3.1	The minutes of the meeting of 14th November 2022 were approved.	
4.0	Matters Arising	
4.1	TS to circulate the Science Fair date to the ACs – Carried forward as the date is still to be confirmed.  TS to arrange for the Anti-Bullying Policy link to be communicated to parents – Completed.  Which Heads of Department have been recruited?  A Head of DT who should start in May and is a Science SLE and a Head of English who is currently working at Gordano School. We are continuing to recruit for a further English Teacher.	TS
5.0	Maths - Dan Lall-Sachdev Adrian Esch,	
5.1	Presentation shared via screen	
5.2	We want to improve Maths results overall, but also to encourage students to go on to Maths at A-Level, therefore we are offering GCSE Further Maths as a bridging module because there is a lot of crossover between this and the upper end of GCSE. We have 20 students giving up their own time to achieve this additional GCSE. We are also offering GCSE statistics which is a bucket 3 option.	
5.3	The Y11 curriculum is bespoke to HPA. We know that the grade boundaries change from year to year, so we have a model to address this.	

6.1	We last met just before Christmas and discussed attendance and rewards to determine what the	
6.0	Student Advocate – Rachel Allchurch	
5.22	Dan Lall-Sachdev left the meeting at 4.30pm	
5.21	How likely are you to achieve 90% 9-4?  This is an aspirational target, realistically we may achieve 80% because we need to consider the crossover with English.	
-		
5.19 5.20	Why are you not following the Y11 CLF curriculum?  It is predominantly areas that have not been taught in the previous years which is often the grade 8 and 9 topics. We set our students and know that they will not be able to access some of this content, therefore we use the route maps as a guide, but we personalise the curriculum to achieve the best for all our students.	
5.18	When can we anticipate progress from the key strategies that you are using?  The quality first teaching that is in place impacts all students including non-PP students. We want positive P8 for all students. We don't want to close the gap by limiting the non-PP students.	
5.17	JH: I noted the Sparx and Dr Maths in the PP Spend, is the PP funding also used to fund the interventions?  Yes, we have a range of interventions available for key students.	
5.16	We have identified students who have not logged into independent study so that Trish can provide additional support to access and complete this.	
5.15	Trish is a part-time qualified teacher who provides interventions for middles attainers.	
5.14	Every internal assessment includes a RAG-rating of where students are and building in independent resourcing in KS3.	
5.13	Sparx requires 100% of questions to be answered correctly; 70% of students in KS3 have achieved this to date.	
5.12	Professional development conversations include observation of colleagues and identifying what support is required to ensure that students make progress.	
5.11	We are putting things in place further down the school so that improvements are sustained year on year. Our department improvement plan includes new internal assessments based on black box modelling. Three sub-levels of progress per year would result in a 5 or above at GCSE.	
5.10	May half-term is after paper one but before paper two and paper three so we can determine key areas to focus on.	
5.9	focus. This has narrowed down to 20% of students in a focused group.  We use a reward system to engage students in online platforms because we know that 20 hours or more of Dr Maths results in a 13% increase in raw scores.	
5.8	In period 7 we had comprehensive coverage with extra Maths being provided which had an exam	
5.7	know that quality first teaching has the biggest impact on PP students, and we have strengths in our team who can meet this need.  75% of students should achieve 4-9 but we are working towards 90%.	
5.5  5.6	We know from last year that progress is not linear, and that progress is still made in the last eight weeks leading up to the exams.  There is a PP gap because we have a high proportion of PP students in the middle Maths tier. We	
	predictive data indicates a positive Progress 8, although we aspire for this to be higher.	

6.2   We also talked about independent study and catch-up and they advised that they are more motivated to do it if they receive feedback from the teacher. We are now trying to unpick why students are not doing it.			
6.3 We talked about belonging and the CLF Big Parliament; relationships, opportunity, and voice were the three things they thought were positive. Having good relationships with teachers who listen to them and other them made them feel part of the community. Having the opportunity to socialise with friends outside of class was important. 6.4 They raised that after school clubs are problematic for those who can't stay and discussed more lunchtime clubs although they appreciated that this means that staff have to be available.  7.0 I-Media – Sharad Obhan 7.1 Persentation shared wis screen 7.2 Brech Travel and Tourism, all students sat the exam in January and can re-sit it in the summer if they need to improve their grade. Historically we have always had good results. 7.3 They work on units 2, 3 and 4 in their lessons and will start their last unit (4) after half-term. 7.4 Y11 Computing is taught by specialist teachers; therefore, the lessons are strong and we achieved the highest P8 in the CLF last year which we are very proud of. CLF are now using our resources across the Trust. 7.5 The students will sit two exams in the summer. The next round of PPE data will determine what support is required. 7.6 I-Media exams were sat last summer, 36 out of 60 students will re-sit in the summer to improve their grades. 7.7 The course is taught by a specialist teacher who has just been made an SLE. 7.8 Last year at this time of year Computing was at -0.32 and then +0.44 at the end of the summer therefore are anticipating the predicted grades increasing once they have completed their units. 7.9 Computing already has a plus P8, but-Media is causing some concern which we are addressing with fortnightly meetings to discuss students' progress and where interventions may be required. 7.10 A real focus this year will be on moving I-Media out of a -P8 position. We have identified which key students to rous on them. 7.11 We know that high quality feedback has good impact on moving students forward. 7.12 Why are there two prouss of that	6.2	motivated to do it if they receive feedback from the teacher. We are now trying to unpick why	
Linchtime clubs although they appreciated that this means that staff have to be available.   Linchtime clubs although they appreciated that this means that staff have to be available. It is from the November mocks. The next set start on Monday.  8.3 What is the combined Y11 data?	
It is from the November mocks. The next set start on Monday.  8.3 What is the combined Y11 data?	
It is not where we need it to be. We have focused on the Basics to date, with a negative P8 score. We have set a target of 85% per subject to ensu combined.	
8.4	
8.5 The PP outcome data for last year was -0.13. There appears to be a dec that correct?  Yes.	cline in the headline data, is
8.6 What are the key drivers for the decline?	
Quality first teaching is a focus. We have a large proportion of HAP stude	
other provision and are not in the building or are school refusers which in	
are reviewing the data for each individual to determine whether the HAF	
accurate. This is the Y9 group who went through lockdown which is imposed because they struggled on return to school life, and it was difficult to eng	
8.7 English and Maths are double weighted in P8 and are key for students to	
courses that they choose.	
8.8 Sian Angell left the meeting at 5.30pm	
9.0 SEN - Kerry Mullinder and Rebecca Collis	
9.1 Presentation via screen	
9.2 I am Kerry the new SENCO at HPA. Last week we had a SEND ARV which	was very helpful.
9.3 We have updated our pupil passports to reflect different provision and ti the Nest or Engage.	imetabled nurture time in
9.4 We have a small number of students who struggle to access day to day p engaging with external provision which is right for them.	provision, so we are
9.5 Y11 exam access arrangements are in place, and we are finding opportur practice using these tools before the exams.	nities for students to
9.6 Y10 access arrangements are in progress, and we are using PPEs to embe	ed them.
9.7 We will focus on Y9 in terms five and six.	
9.8 We are being bespoke in what we offer students so that they can get a q	qualification.
9.9 We have arranged a SEND carousel of training for staff to include SEMH,	·
access arrangements.	
9.10 We are streamlining our resources across the school setting.	
9.11 We have 35 EHCP students and 215 SEN-K students.	
9.12 The largest group of SEND need is SEMH, followed by moderate learning	difficulties.

9.13	The SEMH provision is broken down into different interventions e.g. anger, anxiety, self-esteem, etc	
	and students access a range of these dependent on need.	
9.14	We also have ongoing literacy and Maths interventions as well as in-lesson support with those with the lowest ability.	
9.15	Alongside our SEN register we are looking to create an inclusion register to record what support is in place for students so that we can track what interventions they have received in the past.	
9.16	At the end of last year there was concern about the cohort who were not on a register but were	
	'just about managing'?	
	The inclusion register will capture students who do not meet a SEN threshold and will link back to	
	College Leaders to ensure that they make time for these students. We can identify best practice and	
0.47	then share it across the timetable to support students to be able to access content.	
9.17	We have heard about the SEN-E cohort in Y11 which distorts the data because they are on a dual register, will the access arrangements impact students when they reach Y11?	
	Yes, we aim to ensure that all students can access the provision and achieve the best outcomes.	
	Good differentiation should mean that more students can access learning on site.	
9.18	Short term, medium term, long term – what are the timescales for these?	
0.10	Short term is by the end of this term, medium term by the end of next term and long term by the	
	end of term six.	
9.19	Kerry Mullinder and Rebecca Collis left at 5.50pm	
10.0	SEND	
10.1	Kathryn is the Safeguarding Link and will assess the end of term report with a spotlight focus.	
10.2	ACTION: All Academy Councillors to send questions on Sam's Safeguarding paper to the Clerk who	
	will collate them and send them to Sam to answer. The questions and answers will then be included	
	as an appendix.	
11.0	Policies

We discussed the attendance data which indicates a marginal increase in the gap between PP and non-PP compared to this time last year. Therefore, we discussed whether the PP spend is hitting the right areas.	
12.1	2022-23 Training Programme Holding Leaders to Account - Moved to 8 <sup>th</sup> Feb Governance Conference - 8 <sup>th</sup> March all day – Location TBC Understanding Disadvantage - 24 <sup>th</sup> April 4-5.30pm on Teams What do I need to know about SEND? 10 <sup>th</sup> May 4-5.30pm on Teams Attendance and Exclusions – 7 <sup>th</sup> June 4-6pm on Teams Recently appointed councillor induction - 15 <sup>th</sup> June 4-5.30pm - Location TBC  Link role networks Safeguarding: 31 <sup>st</sup> January, 13 March, 22 May & 21 June - all 4-5.30pm - on Teams SEND: 7 March & 26 June - all 4-5.30pm - Location TBC but probably hybrid PP: 17 April both 4-5.30pm and 19 June at 4.30-6pm - on Teams  PP Link Visit – JH I visited last week and reviewed the PP strategy which has now been published on the website. We reviewed the Thrive learning programme and the work on literacy, oracy and cultural capital including the ski trip at Easter. We discussed the attendance data which indicates a marginal increase in the gap between PP and non-PP compared to this time last year. Therefore, we discussed whether the PP spend is hitting the right areas. We discussed the department developing plans and PP progress which would be good to compare to attendance. We discussed the Y11 attendance minibus and plans in place to level-up the recognition system.

14.0	AOB	
14.1	Strike Activity – TS	
	There are a large number of staff (66) who belong to the NEU; 51 are teachers and therefore the strike activity will impact us so we are meeting as a group of Principals to make plans for remote learning and provision for vulnerable children, etc.	
15.0	Close of Meeting	
15.1	The meeting closed at 6.00pm
